## I.O.O.F. and Rebekah Lodges Celebrate 108th Anniversary

The local members of I. O. O. F. and Rebekah lodges to the number of over one hundred, together with some fifty visitors from Blairmore, Bellevue and Cowley, gathered in the Coleman lodge rooms on Tuesday evening of this week to celebrate the 108th anniversary of the order.

This pleasant social affair was in the form of a combined concert and dance with intermission for supper, and proved to be one of the most enjoyable anniversary parties ever held by these well known fraternal organizations.

The program was as follows:—March "Stony Point" by Coleman Amateur Orchestra, Waltz, Circle Two Step, One Step, Quadrille, Selection "Robin's Farewell" by the Coleman Amateur Orchestra, Waltz, Jersey or Barn Dance, One Step, Waltz.

Supper period—March "Under the Double Eagle" by Coleman Amateur Orchestra, Piano Duet by Marie and Virginia Olson, Violin Solo by J. Russell, Pinn Solo by Marie Olson, Recitation by Margaret Nielson, Recitation by Foss Boulton, Violin Solo by J. D'Andrea.

Selection "Gavotte" by Coleman Amateur Orchestra, Moonlight Waltz, Circle Two Step, Violin Solo by Andre Wagon, One Step, Quadrille, Waltz (French Minuet), Extra (Home Sweet Home).

## Coleman Quilters Elect Officers for 1927 Season

At a well attended and enthusiastic meeting of the Coleman Quilting Association held in the basement of the Grand Union hotel on April 24th, the following officers were appointed for the season:—

Hon. Pres.—Messrs. G. O. Kellock, O. E. S. Whiteside, Coleman; D. C. Bette, Calgary.

Hon. Vice-Pres.—Messrs. D. Davidson, J. A. McLeod.

President—Mr. Wm. Bell.

Vice Pres.—Mr. R. Penman.

Sec.-Treas.—Mr. Jas. Low.

Executive Committee—Messrs R. Jenkins, J. Ramsey, Jas. Low, T. Cuthbert and Wm. Chapman.

The playing grounds are to be enlarged this year in order to provide three rinks, and an energetic campaign will be carried on to secure a large membership. Several local tournaments are planned to take place during the season and outside competitions will be arranged as the season advances.

The officers for 1927 are:

Hon. Presidents—O. E. S. White and Geo. Kellock.

President—A. F. Shott.

Vice Pres.—J. A. McLeod.

Sec.-Treas.—A. E. Graham.

Executive—L. Lindoe, R. F. Barnes and Mrs. A. E. Graham.

Grounds—W. T. Watts and Dr. McLeod.

Tournament—R. F. Barnes and A. E. Graham.

Entertainment—Mrs. R. B. Borden, Mrs. W. L. Rippon and Miss Edith Hayson.

Membership—C. S. Ouimet and F. H. Graham.

The Old Order Change—Slowly

Many Coleman ratepayers will be glad to know that our Town fathers have at last seen the "light" in that they have passed a by-law authorizing the taxation of improvements.

In the event the town takes over our public utilities. Just why this thing has been attached to the by-law is hard to understand. The present system in vogue here, of taxing land-values only, is very unfair to the working man, and as pointed out in an article in these columns a couple of months ago, has been discarded by every forward-looking centre of population in the province many years ago.

## CANADIAN FOREST WEEK CAMPAIGN, APRIL 24th TO 30th

### Work of Organization Outlined—Facts Showing Vital Importance of Forests to Canada

"Industries dependent on products of the forest are of the utmost importance in our national life. They are second only to agriculture in the national wealth they produce. From the standpoint of the public credit, their export trade especially in pulp and paper, renders invaluable aid in maintaining a favourable rate of exchange with foreign countries. From the standpoint of the people, they, of all industries, return to the workers in the form of wages, perhaps, the largest proportion of the cost of production. It follows that the destruction of the raw materials for these industries threatens directly the future means of livelihood of an important part of our population."

—Hon. Charles Stewart, Minister of the Interior.

Weather forecasting has been adapted to forest fire protection in Canada with sufficient success to indicate that it will shortly be a prime essential in protective work. It is hoped that the burning of set-back slash and similar forest operations may be governed by fire weather forecasting methods.

By protection and proper management the accessible forest land of Canada could be made to produce in perpetuity several times the present annual cut. It will, at best, take many years to bring about this adjustment. On the other hand, if present methods and losses continue the annual cut will have to be reduced.

The work of organizing the campaign for the observance of Canadian Forest Week has been in progress since early in the year. While all of Canada is being covered attention is particularly directed to the communities in or near forested districts where the greater part of forest fires originate. Speakers are being provided by local bureaux for organizations and clubs which desire addresses on the subject.

For the schools there has been prepared and distributed through the co-operation of provincial committees a special program of exercises to be carried out by the children under the supervision of the teacher during the week.

In past years the newspapers, realizing the dangers of forest destruction, are taking a leading part.

Since exploitation of our forest resources began, from four to five times the amount of timber actually used has been burned through forest fires.

Wood products enter into the manufacture of commodities which touch every phase of human existence and fifty per cent of Canada's manufacturing industries depend on wood as a raw material. The capital invested in our forest industries is \$666,000,000—one third in lumbering plants, saw-mills, etc., and practically all the remainder in the pulp and paper industry.

The forests of Canada rank second only to agriculture in the value of their products; they are the source of one quarter of our export trade; they provide 20 per cent of the entire freight haulage on Canadian railways and in addition substantially augment passenger traffic earnings by the attraction of tourists; they provide direct employment for over 97,000 workers and furnish salaries and wages to the total of over \$100,000,000 per year.

Canada is the principal source of softwood supplies in the British Empire. Only by curtailing losses and increasing productivity can she hope to discharge faithfully her responsibilities in this direction; she must conserve her forest wealth and bring about a more healthy relationship between depletion and annual growth.

## Rev. Father N. A. McCormick Remembered by Parishioners

On Monday evening the Catholic Women's League of Coleman gathered at the home of Rev. Father McCormick, when Mrs. Hadfield, on behalf of the League, read an address and presented him with a well filled purse. The occasion being the eve of Father McCormick's departure for Ontario, where he was called owing to the serious illness of his brother.

Although taken wholly by surprise, he thanked the ladies for their thoughtfulness and kindly feelings expressed by their gift to him.

A pleasant hour was spent together with the members of the choir, after which refreshments were served by the ladies. All present joined in wishing Father McCormick a safe return soon.

A Grand Musical Festival will be given in one of the halls in Coleman on Monday, May 9th, commencing at 8 p.m., in aid of the Salvation Army Self Denial Appeal. Some of the prize-winning artists in the recent Crown's Nest Pops Musical Festival will be taking part. Further particulars in next week's Journal.

## The Second Empire Mining Congress to Visit The Pass

When the delegates to the second Empire Mining Congress open their session in Canada on August 22, and lasting some six weeks, it is expected that over 1,000 of the most eminent men in the mining profession throughout the world will be in attendance, as already close to 800 have signified their intention to attend, and replies are being received daily from others in Europe, Africa, Asia and Australia, stating that they will be in attendance.

This big representative gathering of mining delegates will be divided into two sections, one to visit the mining centres in the Eastern provinces of Canada and the other will make a tour of the West, stopping at Banff, Turner Valley, Blairmore, Coleman, Fernie, Kimberley, Bonnington, Trail, Altonby, Vancouver and Victoria.

Although the visit of these leaders in the mining industry of the world is some four months away, it is not too early for us in Coleman to make plans to give them a fitting reception on their arrival here some time during the month of September. The local Board of Trade in conjunction with other public bodies should interest themselves in securing data as to their itinerary and arrange a program accordingly.

Coleman has two of the most modern coal cleaning plants in Canada now in operation here, and it is a foregone conclusion that this representative body of men would be keenly interested in viewing these new plants in operation. Fernie, Kimberley, and other towns in The Pass have already made a move to give these visitors every opportunity of securing information relative to what is taking place in mining in their respective districts, and Coleman should at least follow their lead and arrange to properly entertain these eminent guests.

## Oldsmobile Sales Making Big Gains This Year

A steady and consistent increase in retail sales of Oldsmobiles, indicating a banner spring business, is reported by officials of Oldsmobile Works of Canada, Limited. The deliveries to consumers for the first three months of 1927 have shown substantial gains over the same period of the two previous years, both of which were record breaking years.

The record of retail sales of Oldsmobiles during the three ten-day periods of March, 1927, clearly shows that the trend of spring buying is well under way. The second ten days showed a slight increase over the first ten-day period, while the third ten days of the month showed a gain of seventy-three per cent over the second period.

Additional evidence of the increasing demand for Oldsmobile is contained in the number of telegrams received at the factory from Dealers all over the country urging factory officials to speed up shipments and to increase production of all models if possible.

Oldsmobile, with its thirty years continuous production, has in recent years been breaking all past sales records. In fact of the largest sales in its existence in 1925, and again in 1926, the retail sales for the first quarter of this year are 128 per cent greater than for the same period of last year and 687 per cent more than the first quarter of 1925.

Monday, May 9th, has been officially set as Arbor Day throughout the Province of Alberta.

F. M. BLACK, M.P.P. and ex-Provincial Treasurer of the Province of Manitoba, who has been offered the position of Chairman of the Board of Control in B.C. under the Produce Marketing Act of that Province.

## Local and General Briefs.

The warm weather of the past week has caused all streams in the district to reach almost flood proportions. With the exception of a small bridge on the provincial highway going out near Passburg, no damage of any consequence has been reported owing to high water. The town have had several men engaged in keeping culverts on the Nez Perce creek free from obstructions, and strengthening the bank at one place just above the park where the water was threatening to break through.

Miss Grace Patterson was the hostess at a delightful party at her home on Friday evening of last week, which was much enjoyed by a large number of girl friends.

A nice case pipe, the gift of Messrs W. Lee, Geo. Morgan, and Key-Jones to their (Skip) who had the pleasure of curling with them during the past season, was received by the writer this week. The spirit of good fellowship prompting this very acceptable gift is cordially reciprocated by the recipient who looks forward to enjoying many good "draws" when smoking their health now, and in the years to come.

New Zealand is the latest country to notify headquarters of the World's Poultry Congress of 1927 to be held in Ottawa from July 27th to August 4th that it will be officially represented. The Government of the antipodan dominion is sending Mr. R. W. Hawke, one of the best known poultry breeders of the country, who is now on his way to England, to represent New Zealand at the Congress.

Mrs. James Scott, 2nd street, who has been ill for the past two weeks, is making satisfactory progress towards normal health under the care of Nurse Lombury.

Mr. R. F. Barnes returned from Calgary on Tuesday morning. Mr. Barnes states that the Shanghai campaign has been postponed indefinitely.

Rushon's Cash Grocery will be found in new quarters about the middle of next month, when they will occupy the furniture department of the Coleman Hardware Company's store on the opposite side of Main street to their present location. This new location will provide the Rushon Cash Grocery with a fine commodious new home. The furniture department of the Coleman Hardware Co. is being moved to the second floor of the building.

WORLD HAPPENINGS  
BRIEFLY TOLD.

Sir Esmé Howard, British ambassador at Washington, and Lady Howard, will this year visit Western Canada.

Peru has a movement to abolish the present law making the President eligible as a candidate to succeed himself.

Two fine autographed engravings of the King and Queen will occupy a place of honor in the new Canadian legation.

El Salto observatory, near San Diego, announces that several volcanoes in Southern Chile have become active.

Royal Air Force bombing aircraft crashed at East Church, Kent, Eng., and its four occupants were burned to death.

Quebec provincial general elections will be held Monday, May 16. Nineteen will take place May 15. These dates were announced following a meeting of the cabinet.

An Exchange Telegram dispatch from Cairo says that the Egyptian Government has resigned. The Egyptian ministry was formed on June 6, 1925, with Adly Yeghese Pasha as premier.

Discovery of a radically different treatment of the American form of sleeping sickness from any yet described, which may lead to successful eradication of this disease, was announced by Dr. Frederick J. Farnell, of Providence, R.I., its discoverer.

A fossil of unusual interest has been found in the workings of No. 2 mine at Glace Bay, Nova Scotia. The petrified form had the appearance of a crocodile or alligator about two feet long and was discovered embedded in the subterranean area about two miles under the Atlantic.

## World Mean Serious Struggle

Vast Alien Interests in China Likely to Prevent Nation Going Backward

Chang Tso-lin has declared himself ready to welcome any form of popular republican government in China, but is opposed to interference by the Soviet Union.

In China money can do anything. It is therefore conceivable that if the Soviet government cares to spend money enough, the prejudices of Chang Tso-lin may be overcome.

If China goes backward she will probably follow the example of her prototype, and repudiate all her obligations. However, in view of the vast alien interests in China, and the rights vested by treaties in certain foreign powers, it is unlikely that China will be able to become Bolshevik without a serious struggle.

There could be no talk of a conquest of China such as at present she often suffers, though she always subsequently worships the invaders. But the Chinese warlords are so accustomed to compromise in face of superior military force, that the outside powers would be tempted to secure by invasion, and the temporary occupation of strategic trade centres, adequate guarantees that the obligations of China would be discharged. No grave military difficulties would attend such an operation; but it would not hasten in the amiable way that America, Britain and other powers most desire the economic and social development of China.

**Alberta Irrigation Projects**  
Irrigation projects in Alberta which are active in operation are making good, generally speaking, according to the annual report for 1926 of the Alberta Irrigation and Drainage Commission. There are now eight cooperative projects in active operation in the province, involving a total acreage of 406,416 acres, of which 185,890 acres are irrigable.

**Western Fox Ranches**  
According to the secretary of the Canadian National Silver Fox Breeders' Association, Manitoba now has 95 registered ranches and 228 mares; Saskatchewan 33 ranches; Alberta 106 and British Columbia 83.

A feature of the Edmonton Exhibition this year will be another historical pageant, commemorating the diamond jubilee of the Dominion.

One of New York's poorest newspapers burns enough coal in a day to heat four average sized homes all winter.

Jupiter, measuring 86,500 miles in diameter, is the largest planet; Mercury, 4,800 miles in diameter, is the smallest.

W. N. U. 1678

SUNDAY SCHOOL LESSON  
MAY 1

PETER'S DENIAL AND REPENTANCE

Golden Text: Let him that thinketh he standeth, take heed lest he fall.—1 Cor. 10:12.

Lesson: Mark 14:23-54, 66-71; Luke 22:61, 62.

Devotional Reading: Psalm 51:1-9.

## Explanations and Comments

1. In the Palace of the High Priest, Mark 14:23-54.—The time is after the betrayal and arrest in the Garden of Gethsemane. Two painful scenes are being enacted in the palace of the high priest. Above, in the Assembly Hall, stands Jesus before the Sanhedrin (chief priests and elders and scribes), the Judge of the World is being judged by men obsessed by hatred, bent on delivering him up to death.

Below in the courtyard sits Peter. He had followed Jesus after off, and had entered "even within into the court of the high priest," Mark tells us. The crowd is in the courtyard, and "suggests the idea of one steadily feeling his way into the court of the palace, venturing farther and farther in, and gaining courage with each step."

The courtyard was the inner quadrangle, around which the palace was built. The officers (clerks) of the military guard who had delivered up their prisoner and were waiting for further orders. Peter was warning himself by the fire which glowed in an open charcoal brazier.

In the morning the night was cold at Jerusalem and a fire is welcome.

"Sullen, and apprehensive at a word," Peter the bold disciple of his Lord, Crouches above the brazier's slender flame.

Flushing to hear his too familiar name, he looks up, and, startled, he is haunted with Christ's, defiant to deny.

Let him should fervently whisper, "Credui?"

The tongue, afraid to cease or for further orders, Peter is stifled by occasions harsh distress.

The steady eye that flamed in love or hate shifts from wide eye to eye of the crowd, and he is asked, "O Peter? Canst thou still so soon forget?"

There is a cry on Hermon's Mount that hallowed then, While yet the years upon his cheeks were white, From Bethany and grim Gethsemane." — Elwood Lind-ay

## Winnipeg Newspaper Union

**Taxxon**

A Modish Frock of Slendering Lines

Dignity and grace are admirably combined in this frock of indubitable materials. The skirt has an inverted plait in the centre front and each side, and a buckle in front. No. 1563 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 requires 2½ yards 36-inch material or 2½ yards 54-inch, and 7 yards fabric for View A. No hem is allowed on this dress. Price 29 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

White Star Liner "Albion" 19,000 Tons, Largest Ever to Sail From Montreal

Another page in steamship history will be written this season when the Albion, of the White Star Line Canadian Service, leaves Quebec docks at Montreal at the end of April, as this will be the biggest steamer ever to sail up the river St. Lawrence as far as Montreal.

Precious to this season the Doric and Lyndra, sister ships in the White Star Line Canadian Service, have been ordered to Montreal. They will enter the port of Montreal. They are 15,000 tons each, but the Albion is 19,000 tons and, therefore, 2,500 larger than the Doric and Lyndra.

The Albion is a R.M.S.P. steamer. She was formerly known as the Ohio, one of the world famous "O" liners. She will join the St. Lawrence fleet with a regular schedule to her size and, in addition to being the biggest steamer ever to sail up the St. Lawrence, she will be one of the most luxurious to make Montreal her terminal.

The Albion will be used on the direct service to Liverpool eastbound via the westbound route she will call at Quebec, then she will leave Liverpool on her first westbound voyage under the new name.

On May 22 and will steam out of Montreal on her first eastbound voyage on May 7.

Built in 1925, the Albion is 587 feet long, 72 feet wide and 37.6 feet deep and she has seven decks. In the observation deck, "O" is the boat deck on which are located the smoking room, the lounge, the road

ing room and a few staterooms. "O" is known as the promenade deck. This is partially glass enclosed and it offers the incentive to exercise, which, in turn develops the healthy appetite.

On "O" deck too are the luxurious cabins comprising bedroom, with separate beds, sitting room and bathroom while on "P" deck are a few more staterooms, and staterooms together with the dining room, the haven of refuge after the appetites have been created on deck in the tanks for air.

There are three other decks, "M", "N" and "Q", which are used for cargo, where passengers can be assured of a restful sleep after the exertion of the day on the promenade deck.

The equipment of the Albion includes the latest designs in wireless telegraphy and submarine signalling apparatus, fireproof and watertight bulkheads, combined stateroom and dining room, a ladies' dressing parlor, and a library.

The Albion will make eight voyages from Montreal this season, on May 7, June 3, July 2, August 2, September 2, October 2, November 19, and on all these voyages she will carry cabin, tourist, third cabin and third class passengers direct to Liverpool. On her last trip of the season she will call, on route, at Glasgow.

**Canadian Air Force**

Four Modern Fighting Planes to Replace Obsolete Aircraft

Replacement of a few obsolete war type aircraft by a light of four modern fighting planes to families officers of the Canadian air force in the handling of modern 'planes is provided for in the estimates passed by the House of Commons.

The estimates covering civil aviation consist mostly of forest air survey services for other government departments.

The program includes this year air patrols for fire detection and suppression of over 70,000,000 acres of forested lands in Eastern and Northern Manitoba and Northern Saskatchewan, and for fire detection patrol of over 2,500,000 acres in the Rocky Mountains in Western Alberta.

The air survey program includes work in every province in the Dominion. The growing importance of this feature of aviation has been recognized and the development of the resources of the north country are largely dependent on good maps being made available of remote districts now becoming of great importance through their mineral or forest wealth.

Unlikely to Follow Custom

For the first time in history, the King of Spain failed this year to follow the time-honored precedent of granting Good Friday pardons to a number of criminals condemned to death. The reason for this was that in all the prisons throughout Spain there was not a single man condemned to death at the time. The custom of pardoning started in medieval times, the King of Spain as many as a dozen convicts under sentence of death.

**The Changing West**

Senator W. A. Buchanan, publisher of the Lethbridge Herald, addressed the Toronto Young Men's Board of Trade recently on "The Changing West," pointing out the transformation in progress from straight grain growing to mixed farming, with industrial centers developing, all tending to broaden the economic and labor basis of the West.

**The Development of Radio in Sweden**

now covers the entire country, there are now 200,000 receiving sets in use.

**Bill—"Do you think this medicine will do me good?"**

**Hank—"Yes, if you follow directions—Keep bottle tightly corked."**

15 Kinds of Tours  
Europe & Return

These tours are so varied in itineraries, in interest, in duration and in cost, that you may choose one that particularly meets your requirements and purse. *White Star Standard of Service is assured in each.*

**\$155 Thos. Reade's to England**

Return fare. Family party, third class, personally conducted by Rev. W. G. Walsh. Return date optional within one year. Sailing to Liverpool on magnificent

**\$155 3rd Old Londoners' Re-Union**

Personally conducted. An excellent opportunity to cross with home folks on the magnificent

**\$155 Sons of Scotland to Glasgow**

Go home with your own home folk, personally conducted by Mr. Robt. Stewart of Toronto on magnificent

**\$155 Round Trip Tour**

**Royal National Elstiedford**  
Holyhead, Anglesea, North Wales, Aug. 1st to 6th. Sailing on superb White Star Liner

**\$170 Manx Society Excursion**

Manx Homecoming Tour 1927. Lands at Douglas direct. Answer the call to all Manxmen from their island. Vanish. Cross the Manx, the magnificent

**\$170 2nd Northern Ontario Excursion**

**to England and Return**  
Tourist Third Cabin, under the direction of Mr. T. Mosley Williams, Near Liskeard, Ont.

**\$260 up**

**Hone Tours**  
Pilgrimage to Rome, 57 days, \$875. Cabin class, all necessary expenses included. Visiting principal cities in seven European countries. "Hone Tours" (study French while touring Europe) \$260 for 24 days, to \$880 for 52 days, depending on length of tour and places visited. All meals, beverages, and incidentals. Both Hone Tours sail from New York on famous Red Star Liner

**\$267 Canadian Legion Tour - 36 Days**

**Tourist Third Cabin**  
Including all necessary expenses

Under the auspices of the Canadian Legion (British Empire Service League). Visiting Canadian Cemeteries and Battlefields in Belgium and France. The most important points include Lille, Ypres, Arras, The Somme, Paris, London and their immediate vicinities — sailing on the magnificent

**\$315 up**

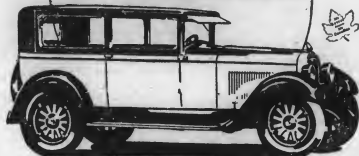

**European Treasure Tours**  
Cabin or Tourist Third Cabin

England, Scotland, Ireland, Holland, Belgium, Germany, France, Switzerland, Italy. Conduction of Tours, 37 days \$315 and up, according to itinerary and class. Also independent tours all sailings. Special Feature: 50% cash balance in 10 equal monthly installments after you return, or, if paid in full, less 5%. Every week until August 20th, first sailing on superb Steamer

**\$345 up**

**18th International Rotary Convention - 30 Days**  
Attend June 5th to 10th at London, England. 30 days, 37 days, 42 days, 49 days, 56 days, 63 days, 70 days, 77 days, 84 days, 91 days, 98 days, 105 days, 112 days, 119 days, 126 days, 133 days, 140 days, 147 days, 154 days, 161 days, 168 days, 175 days, 182 days, 189 days, 196 days, 203 days, 210 days, 217 days, 224 days, 231 days, 238 days, 245 days, 252 days, 259 days, 266 days, 273 days, 280 days, 287 days, 294 days, 301 days, 308 days, 315 days, 322 days, 329 days, 336 days, 343 days, 350 days, 357 days, 364 days, 371 days, 378 days, 385 days, 392 days, 399 days, 406 days, 413 days, 420 days, 427 days, 434 days, 441 days, 448 days, 455 days, 462 days, 469 days, 476 days, 483 days, 490 days, 497 days, 504 days, 511 days, 518 days, 525 days, 532 days, 539 days, 546 days, 553 days, 560 days, 567 days, 574 days, 581 days, 588 days, 595 days, 602 days, 609 days, 616 days, 623 days, 630 days, 637 days, 644 days, 651 days, 658 days, 665 days, 672 days, 679 days, 686 days, 693 days, 700 days, 707 days, 714 days, 721 days, 728 days, 735 days, 742 days, 749 days, 756 days, 763 days, 770 days, 777 days, 784 days, 791 days, 798 days, 805 days, 812 days, 819 days, 826 days, 833 days, 840 days, 847 days, 854 days, 861 days, 868 days, 875 days, 882 days, 889 days, 896 days, 903 days, 910 days, 917 days, 924 days, 931 days, 938 days, 945 days, 952 days, 959 days, 966 days, 973 days, 980 days, 987 days, 994 days, 1001 days, 1008 days, 1015 days, 1022 days, 1029 days, 1036 days, 1043 days, 1050 days, 1057 days, 1064 days, 1071 days, 1078 days, 1085 days, 1092 days, 1099 days, 1106 days, 1113 days, 1120 days, 1127 days, 1134 days, 1141 days, 1148 days, 1155 days, 1162 days, 1169 days, 1176 days, 1183 days, 1190 days, 1197 days, 1204 days, 1211 days, 1218 days, 1225 days, 1232 days, 1239 days, 1246 days, 1253 days, 1260 days, 1267 days, 1274 days, 1281 days, 1288 days, 1295 days, 1302 days, 1309 days, 1316 days, 1323 days, 1330 days, 1337 days, 1344 days, 1351 days, 1358 days, 1365 days, 1372 days, 1379 days, 1386 days, 1393 days, 1400 days, 1407 days, 1414 days, 1421 days, 1428 days, 1435 days, 1442 days, 1449 days, 1456 days, 1463 days, 1470 days, 1477 days, 1484 days, 1491 days, 1498 days, 1505 days, 1512 days, 1519 days, 1526 days, 1533 days, 1540 days, 1547 days, 1554 days, 1561 days, 1568 days, 1575 days, 1582 days, 1589 days, 1596 days, 1603 days, 1610 days, 1617 days, 1624 days, 1631 days, 1638 days, 1645 days, 1652 days, 1659 days, 1666 days, 1673 days, 1680 days, 1687 days, 1694 days, 1701 days, 1708 days, 1715 days, 1722 days, 1729 days, 1736 days, 1743 days, 1750 days, 1757 days, 1764 days, 1771 days, 1778 days, 1785 days, 1792 days, 1799 days, 1806 days, 1813 days, 1820 days, 1827 days, 1834 days, 1841 days, 1848 days, 1855 days, 1862 ## New Bodies New Colors New Refinements

### AT NEW LOW PRICES

THE art and skill of Fisher craftsmen are strikingly exemplified in the long, low lines of the New and Finer Pontiac Six bodies, in their smart belted effects and in their luxurious comfort!

Rich Duco finish, in the latest and most appealing colors, adds to the striking beauty of the New and Finer Pontiac Six. New refinements such as sweeping, full-crown fenders, new, higher radiator, tilting beam headlights, place this car in a class far above that into which its phenomenally low price brings it.

And, back of all these evident improvements and advances stand the established Pontiac qualities of power, speed, stannina and economy—the qualities which won for Pontiac Six the most outstanding success ever accorded any new car during its first year.

Only by seeing the New and Finer Pontiac Six, by driving it and by learning its new, lower prices, can you realize how great a thing has General Motors done in the field of the low-priced Six.

The minister's wife was busy doing some mending when a neighbor called. The visitor inspecting the handy button basket, remarked: "You seem to be unusually well supplied with buttons of all kinds. Why there's one like those my husband had on his last winter's suit." "Indeed," said the minister's wife with a smile. "Well, all these buttons were found in the collection plates and I thought I might as well make use of them."

### Facts About the Coal War Being Waged in the States

For a struggle which involves between 150,000 and 200,000 union miners and is said to threaten the life of the United Mine Workers of America, the strike, lockout, or suspension now under way in the northern bituminous coal fields in the United States, unlike soft coal and anthracite strikes of former years, is strangely devoid of excitement or alarm. The public is indifferent, the miners are said to be looking forward to the enjoyment of a long "vacation," consumers of soft coal, such as railroads and public utilities, appear unconcerned, and the mine owners are "sitting tight."

The soft coal controversy, explains the Birmingham Age-Herald, "is neither a strike nor a lockout, but the equivalent of either." Most of the bituminous coal mines in the central field, embracing broadly Kansas, Ohio, Iowa, Missouri, Arkansas, Oklahoma, Illinois, Indiana, and Western Pennsylvania, and their unionized miners are idle. In Kentucky, Virginia and West Virginia, where non-union miners have been producing approximately 60 per cent. of the entire output of soft coal, the mines are running full blast. In fact, it is pointed out, these mines and miners were the indirect cause of the present trouble. The miners insisted that they could not afford to work for less than \$7.50 a day, which they have been receiving under the so-called Jacksonville agreement, and the soft coal operators maintained that they could no longer pay \$7.50 a day and compete with the non-union mines, which are said to be paying around \$5.50 a day.

They were discussing the North American Indian in a rural school, when the teacher asked if anyone could tell what the leaders were called.

"Chiefs," announced a bright little girl at the head of the class.

"Correct," answered the teacher, "and now can anyone tell me what the women are called?"

There was a moment of silence, then a small boy's hand was seen waving aloft, eager to reply.

"Well, Johnny?" asked the teacher.

"Mischiefs," he proudly announced.

**"Facing The Music"**

The forthcoming production by the Coleman Players at the Grand Theatre on Wednesday, May 4th, bids fair to surpass anything of its kind hitherto seen in Coleman.

The talented artists have practically completed rehearsals and those who have been fortunate enough to witness them claim that they are well nigh perfect.

The evening performance will commence at 8 p.m., and as the play is a long one patrons are requested to be seated in good time so that there may be no interruptions and the thread of the drama lost. The prices have been fixed at 75c for reserved seats and 50c for rush seats. Reserved seats may be obtained at H. C. McBurney's Drug Store, and intending purchasers are advised to make their selections early if they wish to avoid disappointment.

A matinee, commencing at 4 p. m. will be given in the afternoon for the school children, at reduced prices.

### Trail Riders Finish Romantic Journey

1. Trail Riders riding down to the Piarmian Valley. 2. "Trail Riders" with the party.

A cavalcade of 250 horsemen, the Trail Riders of the Canadian Rockies, whose long rides and exploits over the twisted trails of "The Top of the World" have become classic, returned recently to Lake Louise from their annual ride, thus adding another romantic page to the history of this organization in the West.

Their return was strangely silent and different in fact than one might, without thinking, expect. No undue ceremonies or song terminated the mountain journey of these men and women from all parts of America and Europe, for being true nature lovers they had, in their communion with the silence of the mountains found the solace therein. The spirit of their order, was, they knew, "a reverence for the majesty and beauty of nature." Their homage had been paid and their journey ended. They would reveal in the memory of it silently, for they had learned, as someone has put it, that "great joys like great griefs are silent."

But the spirits of the Riders on the trail at all times ran high. While camped on the flat heights of Pt. Margat Pass a rodeo was held with no end of local western color.

Harry Knight, Canadian bucking horse champion, Guy Weadick, Calgary Stampede fame, Bill Bugby, Chief Buffalo Child Long Lance, and many other well known figures in the west accompanied the Trail Riders. This rodeo was carried on at an

altitude of 8,000 feet and brought about an important discovery amongst the scientists of the party. It was found that a horse that bucked four feet into the air at the Calgary Stampede was only capable of a two-foot leap at this high altitude. Guy Weadick was in charge of this novel stampee above the clouds.

The great For-Wow which took place in the Piarmian Valley on August 14th, combined the Riders of two parties which had set out from Banff and Lake Louise with plans to meet at this point. The two parties met on the second day near Baker Lake. A picturesque scene they made with their bright scarves fluttering as the long line of horses scattered down the trails. Perhaps most picturesque of all the group of Philadelphia school girls in their breeches and cowboy hats, all expert riders and splendidly mounted. Each was eager to earn the gold button of

the Trail Riders given to those who have ridden 500 miles in the saddle!

Artists, writers, scientists, explorers and others of international reputation made up the parties. In the ranks of these loyal devotees of the trail were men with such distinguished titles as Duke de Leuchtenberg, Count de Beauharnois, and the Marquis de D'Almeida. Other prominent members who recently completed the ride at Lake Louise were, Morley Roberts, John Murray Gibson, Lawrence J. Burpee and Madge MacBeth all well known writers, and Carl Rungius, Leonard Richmond, R.P.A., A. C. Leighton and other prominent artists.

The directors have decided that next year's ride should be a six day one through the Asiniboine country covering over 100 miles. On the third day this party will be joined by a three-day contingent through Red Earth Creek and Mt. Ball.

### Canada's New Governor-General Arrives

(1) Viscount and Lady Willingdon. (2) Entrance to the new Governor-General's residence in Canada.

Lord Willingdon, recently appointed Governor-General of Canada to succeed Lord Byng, received a hearty welcome to Canadian shores at Quebec City, where he and Lady Willingdon arrived at the beginning of October on the Canadian Pacific liner Empress of Scotland. They proceeded to Rideau Hall, Ottawa, the official residence of the King's representative in Canada. The news of the appointment of Lord Willingdon to the highest representative post in Canada has been accorded widespread approval both in Canada and in the Mother Country, and his arrival to Canadian shores has been greatly anticipated. That this anticipation has been mutual was confirmed by Lord Willingdon in an interview with the Press on board the Empress of Scotland, just prior to her departure for Canada.

"My experiences in Canada in earlier years were exceedingly pleasant, and I am looking forward with very much pleasure to my stay in the Dominion," Lord Willingdon stated. "I understand that a great part of the governor-general's duties is to get about the Dominion and see the

country for himself, and I am looking forward to many opportunities in this direction."

In 1913 Lord Willingdon was appointed Governor of Bombay, an appointment which he held until 1919, when he was appointed Governor of Madras. He returned from India in 1924. That his tenure of office in India was most popular was confirmed by the viceroy, an official portrait of the Indian Government who has recently been visiting in Canada and who opened the National Exhibition at Toronto this fall. The viceroy, a former Premier of the British Empire, became very closely connected with Lord Willingdon regarding administrative matters. In tribute to Lord Willingdon the viceroy stated recently: "I am certain that the King's new representative in Canada will prove very popular. His administrative ability was very highly regarded throughout India. He was Governor of Madras when the popular reformed system of government, a modified system of home rule, was established."

London had a fond farewell to this popular English nobleman, when they left Waterloo Station for the Empress of Scotland. His Majesty the King was represented by Viscount Hambleton. Lieut-Col. L. C. Amery, Secretary of State for Dominion Affairs, was present. Premier Baldwin was represented by Lieut-Col. Sir Ronald Waterhouse. Lady Willingdon's suite on board the line was well-nigh smothered with flowers, these including a magnificent display of carnations sent from Premier Baldwin and Mrs. Baldwin.

### On To The North!

The development of Canada is entering, in fact has already entered a new phase and one which holds promise of adding enormously to the population, wealth, and economic strength of the Dominion. In all the provinces, with the exception of the Maritimes, the attention of governments and people are turned northwards.

The history of Canadian growth during the first half century of Confederation records development upon east and west lines, beginning with the acquisition by the newly-born Dominion of the Hudson's Bay Co. lands of the West and the building of the Canadian Pacific Railway; then came the construction of the Canadian Northern; and finally the protection of the National Transcontinental and Grand Trunk Pacific across the continent. Practically all traffic moved east and west, and in these western provinces a long roundabout journey was frequently necessary in order to travel from one place to another only a comparatively short distance apart on a north and south line.

As a result of this early and quite natural programme of development, Canada became a country for an settlement and trade was concerned, a narrow strip stretching all the way from the Atlantic to the Pacific, but consisting of fewer people than are to be found in European countries which in area are smaller than Canadian provinces. Canada had length but it lacked depth, a condition which made for weakness as a national unit, because of the great distances separating the people and leading to a too great diversity of interests, a lack of knowledge of the needs and problems of the different sections—Maritimes, Ontario and Quebec, the Prairie West, the Pacific slope—a resultant sectional rather than a national viewpoint. Always there existed the possibility of this thin thread snapping at some point.

It is, therefore, a matter of national satisfaction that Canada is now on the threshold of a new great development—a development northwards, which will give the Dominion what it has hitherto lacked, depth as well as length. From all quarters, governmental, financial, manufacturing, comes the confident prediction that the next two or three decades will witness a complete transformation in this respect, and hardly a week passes that some new enterprise involving northern development is not reported.

Development works, financed by Canadian, British and United States capital and involving an investment of close upon one billion dollars, are under way in Quebec which will result in the establishment of great industrial plants, the employment of tens of thousands of men, the creation of new cities and towns, and an enormous expansion in the trade of the Dominion. These are predicted all to the north of present settled areas.

In Ontario, the Provincial Government has decided to push construction of its railway through to James Bay, while throughout both old and new mining areas of Northern Ontario unprecedented activity in prospecting and development is in progress.

Manitoba has awakened to the possibilities of its vast northern territory and, as in Ontario and Quebec, the eyes and energies of the people are being focused on mineral and water-power development there with all that this must mean in industrial expansion. The business men of Winnipeg realize they can no longer depend for future growth upon being simply a wholesale and distributing center for the west.

The age-old demand of the Prairie West for an outlet on Hudson Bay is at last being met by a great new scheme, and the last vestige of delay is being removed, before many months, be completed. The latest discoveries in science and invention are being employed to expedite this work. Airplanes have for weeks been carrying men and supplies from the end of the coast to Churchill, other airplanes will patrol the Hudson Strait, airplanes are being employed in survey work in northern Saskatchewan, as well as in northern Ontario. In important branch lines of railway it is to be built in northern Saskatchewan to connect existing railways with the road to the Bay, while the Saskatchewan Government has appointed a commission to make expert inquiry into the whole subject of power development within the Province.

Alberta has pushed railways well into the north of that Province, and it is now known there exists a wealth of oil, natural gas, and other resources in those northern stretches, as well as vast tracts of fertile lands suitable for agriculture. Investigation is now to be made of the most suitable route for a railway from northern Alberta through British Columbia to the Pacific coast.

Canada has long been a young man's country, a land for the hardy and venturesome prospector and homesteader. It is a land which offers rich reward for the worker, the energetic pioneer. The possibilities which greeted the western pioneer of the early centuries are not wholly of the past; of the northern areas during the next few decades Canada's present and future exist in equal measure for the youth of today, and in the development there citizens will find ample outlet for their ambitions and energy, coupled with that element of romance inseparable from the opening up of a new land. For Canada as a whole a large field for investment and constructive enterprise awaits.

### Husbands Desert Wives

Pitiable Suffering Caused in Many Cases by These Desertions

The Montreal Star says editorially: "Pitiable suffering is caused by the tragedy of husbands deserting their wives and children. There has been a marked increase of this cruel desertion for some years past. Statistics compiled from court records, in our own city, demonstrate the sorrowful fact that fully 23 per cent. of the children placed in institutions of all kinds, and who are practically supported on charity, are 'handicapped' who have been deserted by their fathers. And, think of it, in 24 per cent. of these desertion cases the mother was left left. Here we have brutal cruelty on the part of husband and father."

### For Aches, Pains, The Safe Home Remedy NERVILINE

When sudden sickness comes, when the kiddies come in with colic, their little aches and throats, some from colds, quick results always follow NERVILINE. It's the Cramps, Colic, Headaches, Nerve-pain, a wonderful friend; it brings ease and comfort so quickly. For young and old, to overcome the minor ills that constantly arise in the home, nothing compares with NERVILINE—25 cents at all dealers.

### Hungarian Patriotic

Stock From Alberta Will Soon Be Released in Manitoba

The first ten pairs of Hungarian patriots to arrive through the International Committee of the Red Cross, from the game sanctuary of Benluc, Leden, (Hungary), are being sent to the Prairie Provinces, southeast of Winnipeg, to be in the care of the season open. This was done in the interests of the sports-loving community of the Prairie Provinces. It being hoped that the birds will increase greatly in numbers.

### A VERY RELIABLE HOME TREATMENT

How Weak, Run-Down People Can Obtain Relief

Among the remedies offered for the maintenance of restoration of health and strength, there is none so complete as WILLIAMS' PINK PILLS. Most ailments are due to poor, thin blood. Dr. Williams' Pink Pills have a specific action on the blood, making it rich, red, and nourished, and the functions of the body better performed. Aged people, suffering from weakness, and people specially find new health and strength through the use of this medicine. In the case of Mrs. John Armour, South Monaghan, Ont., who says: "I am one of the many thousands who have gained health through the use of Dr. Williams' Pink Pills, and I take this opportunity of saying a word in praise of this splendid medicine. Before beginning the use of this medicine I was pale and run-down. I found it difficult to do my housework and was tired and breathless at the least exertion. I had tried several medicines without benefit, and finally decided to try Williams' Pink Pills. Soon I began to feel better, sleep better, eat better, and found my weight increasing. In a word I felt like a new person. I have since recommended the pills to others who have taken them with equally good results."

Try Dr. Williams' Pink Pills for anemia, rheumatism, neuritis, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resilience that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now. The pills are sold by all medicine dealers or will be sent by mail at 50c the box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Primitive Russians place a certificate of character in the hands of dead persons, to be given to Saint Peter at the gates of Heaven.

Strangled with Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the asthmatic is completely cured. This unqualified remedy is now many times its price to all who use it.

The Series Illustrations Fair, the original of which took place in the middle Ages, will be held at Banff this year, April 2 to 12.

**Spring Time is CELERY KING TIME**  
Brew a cup of this fine oil vegetable tonic. It is all the spring medicine you need. It drives out winter's poisons, improves the appetite and makes you feel better right away. CELERY KING is good for the whole family. At drug stores, 50c & 60c.

### LOV-O-LA

is unexcelled for Dyeing and Tinting. Produces Dyes of the Same Kind

### French Women Honored

Four who Risked Lives to Save British Soldiers Receive Annuities

Four heroic French women who converted British soldiers from the Germans for months and even years at the risk of their own lives, have received London's tribute of praise and gratitude at the Mansion House. Before a late assembly of British and French Staff Officers and subscribers to the fund raised in their behalf, the Lord Mayor presented to Misses Julie Baudouin, Belmont Gohert, Angèle Lenoir and Louise Caron annuity certificates and illuminated addresses setting forth Great Britain's acknowledgment of their devotion.

It was a ceremony which vividly recalled the World War, and it had a poignant climax when an English father suddenly knelt to kiss the shoes of Miss Caron who for thirteen months had concealed his son behind the German lines.

After all that time, the son, Corporal Hall of the Eleventh Hussars, was betrayed. The Germans shot him and condemned Miss Caron to death, a sentence which later was commuted to twenty years of hard labor.

Her husband escaped only to lead an existence of great suffering until the end of the war, a victim of his courage in helping to harbor his young soldier.

At the closing scene, when the Marshalls crashed out in honor of the heroines of France, followed by the British national anthem, tears glistened in the eyes of all four women and few in the audience remained unaffected.

The exhibition in the hall of the Mansion House was the famous coat wardrobe in which Miss Belmont Gohert hid Trooper Patrick Fowler of the Eleventh Hussars for more than three years.

### To Visit Hudson Bay

Hon. C. A. Dunning Will Make Tour Over Northern Route in July

Hon. C. A. Dunning, Minister of Railways, is scheduled to visit the Minister, and Frederick Palmer, British consulting engineer, will visit Port Nelson and Port Churchill on Hudson Bay in July of this summer. The minister's party, including several engineers, will leave the present end of road on the Hudson Bay Railway and proceed by canoe to Port Nelson. From there it is possible that the party may go north to Churchill. The minister's party, including several engineers, will leave the present end of road on the Hudson Bay Railway and proceed by canoe to Port Nelson. From there it is possible that the party may go north to Churchill.

Two Pokers have been moving men and supplies from the end of the road to Churchill for several weeks past. At the present time drills are at work in the Churchill harbor and by the time the minister's party arrives the necessary data for the engineering report will be available.

### Jasper National Park

Jasper National Park in Alberta, with an area of 4,400 square miles, is one of the largest "parks" in the world. A part of this reserve to the north of the central section is still unexplored, but the park is being rapidly opened up by the construction of trails and highways.

To Acquire Country Elevators Construction or acquisition of country elevators at 57 points, has been decided upon by the Saskatchewan Wheat Pool. It is officially announced. This will raise the number of elevators owned by the Pool to 644.

For distemper—Minard's Liniment.

"Say, you don't know what real trouble is."

"I don't. I once let it be known to a few friends that I wanted to insure myself."

An Oil of Merit. — Dr. Thomas' Eucalypti Oil is not a jumble of medicinal substances thrown together and sold as a cure-all. It is the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A man who carries conviction any who doubt its power to repair and heal.

More mineral discoveries of importance have lately been made in the Portland Canal area, Prince Rupert district.

Keep your secret from your friends and your enemies will never get next to it.

### A Sensitive Camera

Can Photograph Objects at a Distance of 300 Miles

Distant objects invisible to the human eye now can be photographed by a camera perfected by the Army Air Service.

The secret lies in the special film, which is sensitive to light rays that do not register on the eye. It is so exposed that in time of war, a plane equipped with this camera could take perfect pictures of enemy positions while the plane itself would be far out of range and sight of anti-aircraft batteries.

An enemy fleet could be photographed 300 miles off shore. The device may be used against the rum fleet, for the position and name of each ship could be caught in a single picture taken in 300 square miles. It also has been suggested for forest patrol fires for the exact location of fires.

Sold First Matches Hundred Years Ago

Invention of English Chemist Brought Him Modest Income

The century of the match has just been observed in England. Many newspapers printed laudatory editorials on the match and its inventor, John Walker, a chemist of Stockton-on-Tees.

It is recorded in Walker's sales book that he sold a box of friction matches to John Hixon 100 years ago. Although what had been called matches, but were really sticks, had been sold before, Walker's match was said to have been the first practical one. In two years Walker sold only 250 boxes of matches but after that the demand was great enough to furnish him a modest income.

Walker's box contained fifty matches and sold for a shilling. With it went a piece of newspaper.

Ready-made Medicine. — You need no physician for ordinary ills when you have at hand a bottle of the famous Eucalypti Oil. For coughs, colds, sore throat, bronchitis, troubles, it is invaluable for colds, flu, bronchitis, sprains. It is unparelleled while for cuts, sores and the like it is an unquestionable healer. It is a testimonial other than the usual one, and that will satisfy anyone as to its effectiveness.

### Britain's Air Defence

Dangerous for Her to Fall Too Far Behind Other Nations

Public interest in aviation in this country is at a deplorably low ebb. It simply does not begin to compare with the interest taken in France, Germany, and in the latter country especially civil aviation has developed to an extent which leaves us far behind. In part this may be accounted for by the smallness of these islands and the greater obstacles to civil aviation here. It is manifestly dangerous for Great Britain to fall too far behind, for an instructed public opinion is required.

If we are to maintain the number of our squadrons which are no longer necessary for purposes of national defense than was the Navy in the days when the ship was trackless, London Daily Telegraph.

A man seldom walks erect when straitened out by circumstances.

### GUM-DIPPING Builds Extra Miles

THE Firestone process of Gum-Dipping is one of the most important of the many Firestone contributions to more economical highway transportation.

By this process, every fiber of the tire is completely saturated and insulated with rubber, minimizing friction and heat so destructive to tire life.

On the score of hundreds of thousands of motorists, in the day-in and day-out service of the largest trucks, buses and taxicabs, in the battle of tires on race tracks, Firestone Gum-Dipped tires, because of their greater stamina, are delivering longer mileage, with added safety and comfort.

The Firestone dealer in your locality sells and demonstrates these extra quality tires. Let him tell you of the trouble-free service that the Gum-Dipping process insures and how he can serve you better and save you money. See him today.

### EVERY HARD LARGE PIMPLES

Spread Over Face and Hands, Cuticura Heals.

"My trouble began with a few pimples on my face and hands and soon spread all over them. The pimples were very hard, large and red, and festered and scaled over. They itched and burned and I scratched them, which caused eruptions. My face was disfigured, and I could not put my hands in water and could hardly do my work."

A friend advised me to try Cuticura Soap and Ointment and I did so. In about two months I was completely healed." (Signed) Miss Jennie Ducharme, 481 Groulx St., Newwood, Man.

### A Confederation Prize For Literature

Recognition For the Most Outstanding Book of the Year

A Confederation Prize for Literature, to be awarded annually to the author of the most outstanding Canadian book of the year, has been suggested by the Canadian Authors' Association in connection with the celebration of Canada's sixtieth birthday.

The National Executive of the Authors' Association by a unanimous vote has memorialized the Prime Minister, suggesting the setting aside of one-tenth of the \$250,000 Diamond Jubilee Fund to endow in perpetuity such an annual prize for the encouragement of Canadian literature.

Kill Warts with Minard's Liniment.

At the gloriolous point of knowledge some people never got any farther than the soap.

When a woman is unable to go shopping she calls on a neighbor and they talk shop.

## Embarrassing Position Experienced By Bronx Lady

Miss Jeanne Gishewitz, Bronx, N. Y., writes: "I had become accustomed to arising each day with a heavy head, dizzy and bad taste in my mouth. My bowels were frequently clogged and constipated. One day I became so sick to my stomach I had to leave an important job and go home. A friend advised me to take CARTER'S LITTLE LIVER PILLS. I feel greatly relieved since I'll certainly know what to do."

CARTER'S LITTLE LIVER PILLS are sugar coated, small, easy to swallow, purely vegetable, and relieve the bowels free from pain. They tone the system as they are purely vegetable and do not contain Mercury, Calomel or other poisonous drugs.

CARTER'S LITTLE LIVER PILLS, 25c. and 75c. red packages.

Published by arrangement with First National Pictures, Inc.

CHAPTER XXXIII—Continued

"You mean," she said, "that I may marry you, but lose someone else and invite him to love me? That, if I do that it will be quite all right with me, my husband, and that if I do all this, why, I may keep my money?"

"Just that," he answered shortly, "your money, and your love."

When she did not speak, at once he went on with a merciless sneer. "The man you are thinking of will not hesitate, I imagine, to take full advantage of such an arrangement. He has shown himself to be amenable to any kind of conditions. While we are here, tonight, he is kneeling before saintly slippers that were never worn by your feet. You have no done with him as you would like to have done only because he was afraid to blind himself to you. Free him from that fear, and offer him another way, and I fancy, he will not be so elusive. Perhaps I might aid by giving me yourself, as my wife, mind you, you will not only retain your money, but you will solve the problem of retaining it."

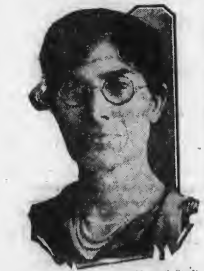

She stared into his eyes for a long time, then dropped into the chair. "Would you mind," she asked, "ordering me something to drink? My throat is parched."

Then she buried her head in her arms.

Without a word Brandon went to the door and signalled the waiter, who had remained on the balcony in the vicinity of the door. The man hurried away. Brandon returned to the chair and stood by the side of the limp form of the girl. He touched her body reluctantly. She put up her head in mute appeal for him to be silent. He hesitated, and then, with a shrug of his shoulders went to the fireplace.

When the waiter brought in the champagne with glasses arranged on the tray, Brandon signed him to deposit it on the table, and waved him out of the room. Joanna stirred and lifted herself, by heaving against the table, to her feet.

## Mrs. E. Scarle Broadcasts Good News

Woodstock, Ont. — "I found Dr. Pierce's Favorite Prescription as well as a tonic and nerve medicine. I was in a rundown, weakened state of health. My nerves were all upset, I could not sleep and had very little appetite. I took Dr. Pierce's Favorite Prescription and found it very helpful. It sharpened up my appetite, strengthened my nerves, and I felt better in every way. I think the 'Favorite Prescription' is the finest medicine any woman can take." Mrs. E. Scarle, 671 Canterbury St.

Any drug store, in tablet or liquid, or send the Dr. Pierce's Laboratory in Hingham, Ont., for trial pkg. of tablets.

W. N. U. 1874

him, and called to a knot of chauffeurs who stood in the misty street, a powerful headlight, its glare, no doubt, the affairs of their masters. None of these responded. He went then into the yard, and among the parked cars he found the hunched shape of Antoine and spoke to him. Antoine, wondering, agreed that Monsieur Brandon was his patron.

"Very well then," the attendant commanded. "Be so good as to bring your car to the entrance. Your master seems to be remaining. Madame will be waiting for you to take her down the moulins. You can't make it, of course, but that is his and his affair, not mine."

Antoine frowned his doubts of such a situation. They were cut short by Joanna herself, who appeared suddenly at the side of the car in the wake of the doorman. "I do not desire to be taken down the moulins," she declared. "Your master, however, is waiting for me, inside at once. I am to await your car, with him, perhaps, in the car. Please to go at once."

Both Antoine and the servant were puzzled, but Joanna heaved no tardiness in obeying her commands. To Antoine she repeated: "I bring your master's orders. Attend to them! The attendant here will show you the way to Mr. Brandon. He awaits you in the private room, on the balcony. Still dubious about this sudden summons to expose him to possible identification by the maskers in the club house, Antoine descended from the car and stumbled along behind the other man. Joanna climbed into the seat he had vacated. When their two forms disappeared across the veranda she felt with her eye for the starting point. It, indeed, it was in another moment was guiding the car toward the gate. When she was safely through the gate she disappeared in the mist.

The curious chauffeurs who had watched her manner heard the echo of her horn until it, too, was absorbed by the thick, opaque atmosphere. "That's the one they call the Golden Girl," one of the drivers explained to his companion. "Pity! I can't, to see a young girl like her clear close to the devil!"

Antoine, led at his request through the misty mazes, was brought to the closed door of the balcony. The guardian waiter opened the door for him. Brandon's eyelids were beginning to quiver. The excited waiter could not have turned of the room with a cry of alarm that Antoine clutched him by the throat and smothered the sounds in it. "Quietly, my friend, quietly," he murmured. "There's no harm in this. Let me not to advertise, Ernie the proprietor, or his assistant — quietly."

At the end of an hour's port ministrations behind the locked door, Brandon stretched on his divan, his eyes open and gazed around him. His first foolishly uttered question was:

"Where's the girl, The Mademoiselle?"

The club house director who had been Antoine's complaint that she had stolen his car, but the Monsieur would not be restrained. "There's no harm in this," he murmured. "There's no harm in this. Let me not to advertise, Ernie the proprietor, or his assistant — quietly."

"But she will give the alarm here," the other exclaimed. "Before morning! After dawn it would be his loss; we contemplated an alarm by."

## Bladder Weakness Remedied by Gin Pills

Buffalo man recommends them for kidney and bladder trouble

Gin Pills bring you quick relief from urinary and bladder troubles. They soothe the kidneys and bladder and get rid of the burning sensation; the frequent desire to urinate is overcome; brick dust deposits disappear. You can again enjoy comfort by day and sound sleep by night. Thousands of people are relieved of bladder and kidney troubles every year. Read what George F. Decker, Buffalo, N.Y., says of Gin Pills:

"I suffered from bladder weakness and frequent urination. I tried many other pills, but they did not help. After taking a box of Gin Pills, I was completely cured. I can now enjoy comfort by day and sound sleep by night. I feel like a new man."

If you have headaches, backache, uric acid, pain in the kidneys, frequent urination or swollen joints, Gin Pills will soothe them. Write to Dr. J. C. Decker, The National Drug & Chemical Co. of Canada, Limited, Toronto, Canada.

## BILIOUSNESS

Sick Headache, Sour Stomach, Constipation easily avoided and liver aroused without calomel Chamberlain's Tablets Never sicken or gripe—25c

down when the men get down. But not before! You do not keep her here—ill men, no rest agreed!" (To Be Continued.)

## Weight of British Debt

Amount Owed to States Placed at \$7,000,000,000

Great Britain's debt to the United States would make a lump of solid weighing 6,700 tons, Lieut-Col. L. S. Amory, secretary for the Dominion, explained in a speech at the annual dinner of the Mining and Metallurgical Institution, London.

"Therefore," he added, "our debt to America is more one for the prospective engineer than for the financier."

The British debt to the United States was funded in 1923 at \$1,600,000,000.

## Is More Than Pleased With Results He Got

Manitoba Man Speaks Highly of Dodd's Kidney Pills

Mr. W. G. Kemble Used Dodd's Kidney Pills for Weak Kidneys and Found Them Very Beneficial.

Minneapolis, Minn. (Special) — The following is one of the many letters of praise which we are continually receiving. It comes from Mr. W. G. Kemble, of Waters Street.

"I used to have bad pains in my kidneys. I was told to try Dodd's Kidney Pills and must say I have to thank the person many times for telling me about Dodd's Kidney Pills. They brought me great relief. I would not be without them."

That Mr. Kemble's trouble came from the kidneys is evidenced by the relief he got from Dodd's Kidney Pills. When the kidneys become clogged or out of order, the circulation becomes sluggish, the impurities are not strained out of the blood and the result is weakness and lack of energy all over the body. This condition is not only disagreeable but dangerous as well. The impurities in the blood are the seeds of disease.

Get quick relief from these dangerous ailments. The impurities in the blood are the seeds of disease. Get quick relief from these dangerous ailments. The impurities in the blood are the seeds of disease.

## Had New Experience At Bird Sanctuary

Famous Naturalist Proves That "Wild Geese" Are Not Wild

John J. Miner, a famous naturalist, whose bird sanctuary at Kingsville, is one of the show places of Ontario, has contended for a long time that the Canadian wild geese is not wild—that it is humanely tame, that are wild. He had a new experience while entertaining a party of visitors at his place, who arrived there at dawn to see geese flock from the lake to his ponds. He was surprised to find the geese so tame that he could have taken them by the neck. He had a new experience while entertaining a party of visitors at his place, who arrived there at dawn to see geese flock from the lake to his ponds. He was surprised to find the geese so tame that he could have taken them by the neck.

Many mothers can testify to the value of the "Graves" Worm Expeller, because they know from experience how useful it is.

## Veteran "Mountie" Dead

John Stutford Member of First Contingent to Reach MacLeod

John Stutford, 53, believed to be the last survivor of the first contingent of Royal North West Mounted Police to reach MacLeod in 1873, died recently after the best part of a life spent in Alberta.

Mr. Stutford came to MacLeod with the famous French police expedition, the year before Colonel MacLeod headed his forces into the territories. He lived in MacLeod ever since.

The dead veteran was buried here with full military honors, a unique feature of the ceremonies being that six veterans of the police expedition of 1871 acted as pallbearers.

Customer: "Oh, dear, no! I simply could not walk a step in shoes that pinch like that."

Shoe Clerk: "I'm sorry, ma'am, but you've tried on all our different styles. These shoes are the ones you were wearing when you came in."

A soft bed will build as much mental energy for the sleeper in six hours as a hard bed will in eight; is the conclusion reached by a noted psychologist.

## Germany's Burden Easy

Tax Load of Englishman Is Two Thirds More Than Teuton's

Once more the British will have brought home to them the truth that war is an expensive business. Already the most heavily taxed people in the world, they heard from Winston Churchill that they must pay yet more taxes to meet the annual \$250,000,000 and \$250,000,000.

Of this tremendous sum, which is calculated, means that every Englishman works one day in five for the Government, half goes for debt charges. Of this \$210,000,000, more than nine-tenths goes toward caring for the \$7,000,000,000 or \$25,000,000,000 the World War cost Britain.

This calls attention to how much more it is costing Britain to liquidate her war expenditure than it is costing Germany. Using dollars for ease of calculation the English Government owes \$25,000,000,000 and her debt charges are \$2,000,000,000 annually, whereas Germany has only \$2,000,000,000 of her debt, over the Taxes plan annulment the present total value of which is estimated at \$11,000,000,000.

Under the maximum annuities she pays \$2,000,000,000 yearly. She pays two-thirds of that amount this year. Thus it will be seen that it is costing German taxpayers about one-third as much as it is costing British taxpayers to care for the war debt.

The French this year appropriate \$2,000,000,000 francs, or about \$50,000,000. The debt charges are about the same proportion to the budget as the British but less than half on a gold basis. The French war debt cost is thus 50 per cent more than the German maximum.

## Uncanny Imitation Of Human Voice

English Inventor Makes Organ-pipe Reed Speak Clearly

By the use of an organ-pipe reed, his fingers and a bellows operated by foot, an English inventor has succeeded in imitating the human voice to an extent that is uncanny. The reed serves as the vocal organ and the fingers as the tongue and lips.

The recently produced sentences—"London, are you there?"—clearly as if he were telephoning from New York. It is claimed that the experiment proves that the human voice is largely a mechanical result of muscular and nervous action.

## THAT BABY OF YOURS

Keep Him Well With the Aid of Baby's Own Tablets

No matter how strong and healthy your child may be he requires a laxative sometimes so that the bowels may be kept sweet and the system clean.

Formerly the laxative medicines used for infants were disagreeable—area-castor oil, senna tea, powders and so on. But now Baby's Own Tablets are easily administered and pleasant to take, have superseded these. The children like Baby's Own Tablets.

Not only as a laxative but in many other ways these Tablets are an ideal remedy for little ones. They quickly reduce feverishness, relieve indigestion, colic and vomiting, prevent the common cold, soothe all itching pains and promote healthy, natural sleep.

Get a box of Baby's Own Tablets at any dealer in medicine or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## 222nd Battalion Re-Union

Association to be Formed of Former Members of This Unit

At a Re-Union Dinner of the 222nd Battalion held in Winnipeg recently, it was decided to form an Association for the purpose of having an annual Re-Union, and keeping former members of the unit in touch with each other. Full particulars of the association can be obtained by communicating with Lieut. Col. Jan. Lightfoot, of Lightfoot's Transfer Co., Winnipeg, or Mr. Jas. Henrich, ex Hydro Office, King St., Winnipeg. It is hoped to make this association a real fraternal and all former members of the battalion are urged to send in their names and addresses.

## Minard's Liniment soothes tired feet

Many Radio Phone Calls

The Postmaster-General announced that to the end of March the number of calls to radio telephone calls passing between England and America was 257 westward and 398 eastward.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Hottel's Corn Remover.

## Was So Nervous The Least Noise Made Her Jump

Mrs. W. H. Yates, Ashern, Man. writes: "I was bothered very much by my heart and nerves, and the least noise would make me jump and almost stop my heart beating."

I told my mother about it one day, and she said that she had been bothered the same way and told me to get a box of

MILBURN'S HEART NERVE PILLS

When I had taken the one box I felt quite a lot better and by the time I had taken three boxes I got relief. I tried a box at all doctors, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Splendid Washboards

Here's a washboard so strong that a big, 165 pound man can stand on it without damaging it in the slightest way.

That tough SMP Enamelled rubbering surface is mighty near everlasting, and the rest of the board is built in the same way. The remarkable wearing qualities of this sturdy washboard demonstrate the value of the money you get from all SMP Enamelled ware utensils. Made by that old established Canadian company.

Little Helps For This Week

That all may learn, and all may be comforted—1 Cor. xiv. 21.

When God gives us to see the clearest sight,

He does not touch our eyes with love, but sorrow

—John Doyle O'Reilly.

We must suffer ourselves before we can truly love others, and we must suffer greatly before we can love widely. Why it is so we may not be able to tell, unless it be that only thus do we gain the knowledge of ourselves. There is in the heart of man a secret chamber where God has put all humanity and Himself; touch the door with the open hand of suffering and it flies open, and man finds himself one with all others, and God Himself in the midst of them.

—Theodore T. Munger.

Develop Fort McMurray Tar Sands

Arrangements by the Altagate Co. of California, to install a \$250,000 plant at Fort McMurray, Alberta, for the development and extraction of asphaltic deposits in the tar sands there are nearing completion.

The American quick lunch, with its high stools, tipping flapjacks, odors of "ham an" and shrill cries of waiters, has invaded Mexico City. Signs are broken as the crowds flock to eat sandwiches at the new fronts.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under such conditions one can be got the Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased, and a return of the attack will not be likely.

Girl students at William and Mary College who do not make eighty in their studies may not have "dates" and other social privileges.

Was So Nervous The Least Noise Made Her Jump

Mrs. W. H. Yates, Ashern, Man. writes: "I was bothered very much by my heart and nerves, and the least noise would make me jump and almost stop my heart beating."

I told my mother about it one day, and she said that she had been bothered the same way and told me to get a box of

MILBURN'S HEART NERVE PILLS

When I had taken the one box I felt quite a lot better and by the time I had taken three boxes I got relief. I tried a box at all doctors, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## THE COLEMAN JOURNAL

2ND AVE., E., COLEMAN, ALBERTA. - E. F. GARE, Editor and Publisher

An independent paper published every Thursday. Subscription rates: \$2.00 per annum in advance; to U. S. and Great Britain \$2.50.

Legal, government and municipal advertising, 15c a line for first insertion and 10c a line for subsequent insertion.

Transient advertisements to be paid for when ordered.

Display advertising rates on application at the office.

THURSDAY, APRIL 28, 1927

## EDITORIAL NOTES

If the Town of Coleman purchases the water and light utilities, they will require to adopt a less lenient attitude towards consumers of water and light than has been the case in the past with respect to delinquent tax payers. If nearly one-third of water and light consumers were allowed to ignore their indebtedness for two or three years, the paying consumers would be required to pay almost double the present rate to keep the system operating.

The first session of the 16th parliament of Canada was prorogued on the 14th inst. It was among the shortest, if not the shortest regular session since confederation, and those in a position to know say it was the most business-like and harmonious session of recent times, with little partisan and factional strife.

Save the Forests! April 24th to 30th is Canadian Forest Week Campaign. Remember to be careful with fire when in the forests this and every week during the summer.

A red and blue color scheme, representing the two major political parties, might be adopted in decorating the Canadian embassy building at Washington.

Monday, May 9th, is Clean-Up Day in Coleman. After an unusually long winter season, many back lots and alleys contain their full quota of accumulated rubbish, and is a menace to the health of the community if left there now that warmer weather is here. Get out the rake and shovel and make war on these unsightly mounds of trash.

Oster said every man over forty is senile, or words to that effect. Now Bernard Shaw comes along with "every man over forty is a scoundrel." But Robert Browning said:

"Grow old along with me.  
The best is yet to be.  
The last of life for which the first was planned."

## Why The World Antagonizes Russia.

The very well-informed correspondent at Moscow of the New York Times, Mr. Walter Duranty, reports the Soviet authorities as being exceedingly anxious concerning the possibility of the creation of an "Anti Soviet Bloc." He says that they look upon the united action of the American and British flottes at Nanking as indicative of a united front regarding Chinese affairs, and the development of the British anti-Soviet policy. They feel that if the western nations can be so unified against China in revolution they can be equally harmonious in antagonism to Russia.

It would hardly require any very extraordinary perspicacity on the part of the Bolsheviks for them to vision such a united world-wide antagonism to them and to their purpose. The world was not hostile to the Russian revolution. The regime of the Tsars was and still is regarded with aversion amounting almost to horror on the part of other nations. The atrocities which attended the revolution, while they shocked humanity, have passed so far into history that had the Soviet Government maintained any sort of a reasonable conciliation

the economic basis of Bolshevism, namely Communism, will ever take an extended hold. But even at that, the present situation in China adds one more to the list of reasons why there must be a union, at least a tacit union, of organized governments against the Bolshevik peril.

"He that taketh the sword shall perish by the sword." It is not probable that the world's battle upon Bolshevism will be prosecuted by the sword. There is no thought anywhere of adopting military measures against Russia. But until there shall succeed to the firebrands who have thus far governed that unfortunate country, men with a wider comprehension of international rights and duties, it will remain outside the pale of civilized nations, and continue to suffer from the business and economic aloofness of the rest of the world—Christian Science Monitor.

APPOINTED CHIEF ELECTORAL OFFICER

Jules Castonguay, who has been appointed chief electoral officer of the Dominion to succeed Col. O. L. Biggar. Mr. Castonguay has been connected with electoral work in this country for over 30 years, and his appointment is a very popular one.

## The Men Who Know McLaughlin-Buick Best

It is from the man behind the wheel of the McLaughlin-Buick that the most sincere expressions of appreciation come. It is upon the experience and the judgment of the man who knows McLaughlin-Buick that this car has become the standard by which all other cars are measured—the literal basis of comparison of automobile values.

Year after year, by dint of constant improvement in detail, yet upon the unchanging principles of McLaughlin-Buick construction and quality, McLaughlin-Buick maintains and increases its undisputed leadership among quality cars and adds to the numbers of those who respect McLaughlin-Buick because they have knowledge and experience of McLaughlin-Buick comfort, beauty, performance and endurance.

Upon the verdict of the McLaughlin-Buick owner, McLaughlin-Buick confidently rests its case.

## Here and There

Reports received by the Provincial Department of Agriculture indicate that the crop acreage this year will be much larger than last year. Some of the estimates show as much as 600,000 acres in advance of 1926.

Roger Babson, noted statistician, in addressing the Canadian Club of Toronto, said that in 25 years time Vancouver would be the greatest port on the American Pacific coast and that it was only a matter of time before the trade across the Pacific Ocean would equal, if not exceed, that of the Atlantic.

It is announced by the Hon. W. R. Motherwell, Minister of Agriculture, that a contract had been entered into with the Nova Scotia Public Fish Cold Storage Terminals, Limited, at Halifax, respecting the construction and equipment of a modern cold storage plant at Highway, to be completed about November 1st, 1928.

It has been officially announced that the Canadian Pacific Railway will operate the Hereford Railway which extends in Quebec from Lime Ridge to the United States boundary, passing through several Eastern Townships, including Cookshire, Stewville, Madras and Valleyfield in Paquette. This line has not been operated since November, 1925.

Heirs to the thrones of Great Britain and Spain will vie with each other at the World's Poultry Congress to be held at Ottawa July 27 to August 4. H.R.H. the Prince of Wales will exhibit some live birds from his farm in Cornwall, England. Now word is received that H.R.H. the Prince of Asturias, heir to the Spanish throne, will exhibit some fowl from his own poultry farm.

Over 1,000 members of the parish of St. Aidan's Church, New Jersey, journeyed to Montreal over the Canadian Pacific lines on Easter Monday to visit the famous Oratory of St. Joseph. The visit was in the nature of an act of thanksgiving for the miraculous cure last year of their pastor, Rev. Father Roger McGinley. Father McGinley had been suffering from heart trouble for some years preventing his entering the pulpit. Following a visit to Brother Andre, however, in Montreal, his condition improved almost instantaneously. Within a few days he was able to address his flock.

Passengers on the Canadian Pacific flagship "Empress of Scotland," now completing a world cruise, visited the ruins of the site of the old city of Panama destroyed in 1671 by Sir Henry Morgan, the famous English pirate. The ruins have come into the limelight recently on account of the fact that treasures valued at over \$50,000 have been discovered by a young English fortune hunter, Lieutenant George Williams. The discovery, which was made by means of a delicate violet ray detecting instrument of his own invention, consisted of gold church ornaments, gold dust and jewels. The delicate instrument still indicates that larger treasures exist at this site.

Completing a journey of over 30,000 miles during which the entire globe was circled, the Canadian Pacific flagship "Empress of Scotland" docked at New York recently. Over 400 passengers disembarked laden with every imaginable kind of souvenir from every country. The ship carried back the first refugees to America from the war zones of China in the persons of Mrs. Melvin Southwick and her young baby, who were forced, through Chinese difficulties, to board a tramp steamer for Kobe, where they were picked up by the "Empress of Scotland." Mrs. Southwick's husband is an official of the Standard Oil Company at Hankow. During the great cruise of the "Empress of Scotland" she visited about 20 countries and anchored in over 25 world ports.

Supervising 200 Norwegian settlers, including wives and children, from the districts of Nottodden, Heddal and Valldres sections of Norway, Eric Finstoe, chief clerk in the Canadian Pacific Railway offices at Winnipeg, saw the settlers off for Winnipeg from the Windsor Station, Montreal, fifty of the party are going straight to relatives. Mr. Finstoe estimates that some 600 persons from the districts named will eventually come to Western Canada.

## QUOTA LAWS ARE TO BE ENFORCED BY UNITED STATES

Washington. — Notice will shortly be given by the United States Immigration authorities that from June 1 next residents of Canada born outside the Dominion who cross the border daily to work in the United States must conform to the immigration laws of this country. This means that those who obtained employment on the United States side of the border since the quota immigration law went into effect must register under the quota of the year in which they first began working in the United States. Canadian-born workers in the United States will not be affected.

Commissioner Hull of the Immigration department, made it clear that native Canadians would not be disturbed by any regulations issued. A statement is to be published shortly under which residents of Canada may cross the border daily to work on this side, but it will rather reaffirm the old law than set any new departure.

The Canadian legation has obtained assurance that everything will be done to accommodate non-native workers already engaged in the United States, and that reasonable time will be permitted to allow them to take out permits under the quota laws. It is understood that British-born were living in border towns before 1929, when the quota system was adopted, and therefore will not be required to apply for permits. Places may be found in the old quotas for those who have been working in the United States for years.

"We are going to make it as easy as we can for everybody," said Commissioner Hull.

Apparently the regulations are designed to prevent non-aliens coming on to Europe to Canada and working in the United States, rather than to affect those who have been living in Canadian border towns for some time.

## All the World a Mirror

Sound of a Face is Flashed Across the Atlantic

London. — The latest accomplishment in the progress of science toward making all the world a mirror by means of television was announced recently. The "sound of a face" was declared to have been transmitted across the Atlantic.

J. L. Baird, the inventor of television, was the subject of the test. He sat before the televisor in London and the sound produced by his voice was recorded. A receiver in New York received the signal. The receiver reported that the recipient of the face flash "sounded like a scratch" and that was all there was to it.

Third plans to visit the United States in June and install a receiving machine which will turn the face itself into a picture of the face it sees.

## May Test Old Agreement

Canadian-U.S. Visa Pact Interesting Immigration Men at Washington

Washington. — Immigration officials here were greatly interested in reports that the Chamber of Commerce at Windsor, Ont., had taken steps to develop through the Canadian government the validity of the Jay Treaty of 1791, under which Canadians might cross the boundary into the United States without visas or passports. A case involving similar questions was recently fought out in the courts by Canadian Indians who were given the right to move across the border unrestricted, and an appeal by the government in this case has been entered.

Expect to Win Wager

Toronto. — W. H. Chapman, aged 77, who has walked nearly 10,000 miles since July, 1923, to win, he says, a \$5,000 wager, passed through this city April 19. He has yet to cross the continent to comply with the rules of the wager. He started from Milwaukee and he is now going to Cochrane, and expected to be in Vancouver and complete the round trip some time in the summer.

Canada Olympic Grant

Ottawa. — An appropriation of \$25,000 has been made by the Canadian Government to defray the expenses of an athletic team which will be sent to the 1928 Olympic games. Officials anticipate a team of about thirty athletes will make the trip.

W. N. U. 1678

## Well Known Horseman Killed

Captain Lidington, Victim of Horse-Play Wreck, Was Bringing Shipment of Horses West

Ottawa. — Captain J. Lidington, who was killed in the train wreck at Hornepayne, was an internationally known horseman. His father, Major Lidington, had himself been conducting a shipment of thoroughbreds from England and had been in Ottawa for several days where some of the horses were disposed of. Major Lidington took his wife here and is in the civil hospital.

The son, on Easter Monday, preceded, assisted by helpers Garnett Bull, H. Enderby, and Patrick Brown, all believed to have been from Thame, England, to load the remainder of the horses, some 25, which were being taken to Winnipeg and Vancouver where they were to be sold.

Six of the horses in the shipment were sold while the party was en route to Captain J. Lidington, of Toronto, Joseph Gleason, of Ottawa, bought one, and eight were sold in New York. All the remainder of the shipment, except two, is believed, were killed in the wreck.

The horses were believed to have all won races in the old country and was a valuable collection. Major Lidington and his son had planned on returning to England for another shipment in August.

## Not Getting Fair Deal

Rural Schools Entitled to Experienced Teachers Opinion of Dr. Kerby

Edmonton. — "Rural school children are not getting a fair deal today," declared Dr. George W. Kerby, principal of Mount Royal College, Calgary, in an address before the convention of the Alberta Educational Association here. He deplored the tendency to train teachers for handling city schools, the sending of junior and often immature teachers to country schools to gain experience and a lack of sympathy for rural schools.

"The average rural school trustee looks at the country school as a little building where a little teacher teaches little things to little children for a little while at a little salary," declared Dr. Kerby. "There is need to consider the whole question of rural education, which is greater than the wheat pool or immigration problems."

## Russian Trade

Improvement in Agriculture and Industries is Reported

Moscow. — A big British concern engaged in shipbuilding has approached the chief consular commission of the Union of Soviet Socialist Republics offering \$100,000,000 long term credits to build more ships for the Soviet, according to announcement made here by the trade delegation of the Union. The offer, it was stated, was now under consideration.

During the four months of the current fiscal year, beginning October, 1928, export trade of the U.S.S.R. reached \$125,541,000, leaving a favorable trade balance of nearly \$48,000,000. Trading was centered principally with eastern countries.

Statistics declared the population of Russia was now 141,805,000 and statistics showed a general improvement in agriculture and industries since the 1921 period of depression.

## Another Royal Exhibit

Belgian Queen Announces Entry for Poultry Congress

Ottawa. — Still another member of a European royal family is to be an exhibitor at the world's poultry congress to be held in Ottawa from July 27 to August 4. Consular authorities received word from Brussels that included in the Belgian national live bird exhibit would be a number of fowl the property of Her Majesty Queen Elizabeth of Belgium. The Belgian exhibit will consist of fowl, pigeons and rabbits.

Other royal exhibitors already announced are His Majesty King George, H.R.H. the Prince of Wales and H.R.H. the Prince of Asturias, heir to the Spanish throne.

Hopes to Retain MacBrien's Services

Ottawa. — The hope that the services of Major-General J. H. MacBrien, chief of staff of the Department of National Defence, might be retained was expressed by Premier King, addressing the officers of the Governor-General's Post Guards at a dinner. General MacBrien some time ago tendered his resignation. Premier King paid high tribute to General MacBrien.

## Canada's Jubilee

Sir Arthur Curry Would Like to See Preparations Hurred Up

Montreal. — The apathy with which, he said, Canadians were approaching the jubilee date of Confederation was deplored by Sir Arthur Curry, commander-in-chief of the Canadian troops during the war and principal of McGill University. He spoke before the Electrical Club of Montreal.

"Jubilee committees have been appointed," said Sir Arthur, "but I would like to see some sign of activity upon the part of those forming those committees. The birthday of Confederation is not far off. It is high time something were done. I know that on the first of July those great halls at Ottawa will feel those who will not reach the general public of Canada."

## Chinese Communists Executed

Shanghai. — Six prisoners described as communists and including the head of the Chinese seamen's union, were executed today at the Nationalist (Cantonese) headquarters in the native city of Shanghai. This brings the total number of agitators executed since the moderates began their drive against the Reds to more than 100.

## FORMER LABOR PRIME MINISTER AT WASHINGTON

Washington. — A sentimental traveler down old familiar roads was howl right Hon. J. Ramsay MacDonald, former Labor Prime Minister of Great Britain, described himself to the Canadian Press correspondent here, when he arrived for a brief visit to Sir Esmé Howard, the British ambassador.

Mr. MacDonald stated that his visit had no political significance. He said he was unable to reach Canada on this trip as pressure of business, compelled him to sail for home very soon.

Asked if British Labor had seriously protested the deportation law of 1919 in Canada, Mr. MacDonald said he had never been seriously alarmed that the sedition laws of the Dominion would be unfairly used against Britishers here.

In the opinion of the former Prime Minister, the Baldwin Government had "fumbled," and the trend of political opinion was in favor of the return to a Labor Government in Great Britain on his analysis of the vote in recent by-elections in Leith and Southwark.

Mr. MacDonald predicted a recurrence of the coal miners' strike unless wrongs of the miners were redressed soon. He did not believe, however, that the general strike weapon would be used next time, remarking that many who favored the general strike weapon had found themselves unwilling to be "generally struck."

Mr. MacDonald was a luncheon guest at the British embassy and was entertained at dinner by the executive council of the American Federation of Labor.

## New Fashions from Japan

These young ladies who are travelling on the world cruise of the beautiful Japanese ship the Empress of Manchuria, were on strike by the Japanese fashion designers when they came down to Japan that they went and purchased one of the most outstanding, namely, the haori. This, he can be seen from the engraving, is a very beautiful sort of shawl whose folds can be arranged according to taste in almost any shape desired. They are very attractively figured in floral designs and from the general appearance of them, it would not be surprising if these young ladies became the advance guard of a new fashion originating from Japan. Anyway, we make a present of the idea (although not of the garment) to our readers.

## IS NOT POSSIBLE NOW TO EQUALIZE FREIGHT RATES

Ottawa. — After stalling extending over two years and occupying 15 days, the general freight rates inquiry by the Board of Railway Commissioners is drawing to a close. The inquiry is expected to be completed this week.

Isaac Pitblado, K.C., the last counsel to be heard for the provinces or others opposing rates increases, concluded his address and W. N. Tilley, K.C., Toronto, at once opened the case for the railways. He remarked on the changes which had occurred since the first important argument on freight rates was before the board, in 1911. Important changes had occurred in transportation conditions. In those days there was only one trans-continental railway spanning Canada. So, too, the scope of this inquiry was far more sweeping and comprehensive than any previous investigation had been and the judgment of the board, when rendered, would be of the greatest importance to all concerned — to the railway, the provinces and the nation as a whole.

Mr. Pitblado dealt at some length with the matter of equalization. He declared equalization of rates was an impossibility today. Any attempt to adjust the present rates structure today on the principle of an equal rate for equal mileage in every part of the country would mean chaos and disaster to the commerce of the country.

It was far more necessary, he declared, to set about an adjustment which would enable the natural resources of the country, the fruit, lumber, canning products, fish, etc., to move from the point of production to the most profitable market and so facilitate the development of that market, both domestic and foreign, than it was to legislate so that the trader in Montreal could serve his local market, of say 150 miles radius, at the same cost of transportation as the trader in Winnipeg could serve his.

Equalization of rates, said Mr. Pitblado, was no new idea. An attempt had been made in 1912 to put equalization legislation through the Canadian Parliament but without success and a similar attempt in the Imperial Parliament the previous year had met a like fate. Today it was no more practicable than it was half a century ago.

## Arctic Field is Safe

New York. — The North American Newspaper Alliance has been informed that Lieut. George H. Wilkins, Arctic fielder, who has been missing since March 23, when he hopped on from Point Barrow Alaska, for the unexplored region to the north, has made a safe return to Beechy point.

## Negro's Skin Turns White

Glasgow, Ky. — Eugene Clark negro, whose skin began to change color a few years ago, is dead at his home near Sulphur Well. At the time of his death Clark's skin had turned white and been transformed from black to white.

## Government Refuses To Act

Peking Officials Reject Soviet Demands in Connection With Raid

Paris. — Rejection by the Peking Government of the demands of the Russian Soviet Government in connection with the raid on the Soviet buildings in the embassy compound at Peking, is reported in a despatch to the London Times. The raid on orders of the Northern Chinese authorities was carried out on April 6.

Two days after the raid the Soviet Government ordered all the embassy officials to leave and in a note delivered to the Chinese chargé d'affaires at Moscow, made a series of demands. These included immediate evacuation of police from the compound, the release of all those arrested in the raid, and the return of all documents seized, together with all money, personal property, household goods and books taken by the police.

## Only Two Dry Provinces

Government Liquor Control Goes Effect in New Brunswick

Fredericton. — The province of New Brunswick formally associated itself with the other six provinces of Canada which now have Government control liquor laws when Lieutenant Governor Todd gave Royal assent to the measure which passed the Legislature and which gives this province an act similar in many respects to that which will shortly come into operation in Ontario.

This leaves only Nova Scotia and Prince Edward Island with temperance laws based on prohibition of the sale of alcohol.

## Federalship Seizure Illegal

Judge Hands Down Decision in San Francisco Case

San Francisco, Cal. — Handling down a decision that the seizure last March of the steamship Federalship with its million-dollar cargo of liquor and arrest of the captain and 19 members of the crew, 200 miles off the California coast, was illegal, Federal Judge Bourquin ruled that the seizure was in violation of treaty relationships between nations.

Captain S. S. Stone, skipper of the Federalship, and 19 members of his crew, were released from jail following the judgment.

## CIVILIAN WAR SUFFERERS MUST WAIT FOR A YEAR

Ottawa. — There will be no payments this year to the civilian sufferers from the great war.

Reparations Commissioner Friel has not yet completed his work. It is understood that the secretary of state has been for some time pressing Mr. Friel to hurry his report, now ready, still unfinished, but has been unable to speed things up. The result is that many impoverished citizens of Canada must suffer for another year without the compensation payments which the Dominion is willing to pay.

These war sufferers have no legal claim, but the principle has been generally accepted that compassionate payments will be made out of Canada's share of the reparations under the Dawes plan.

There is no legislation authorizing this and whatever payment is made must be specifically voted by parliament. An attempt was made two years ago to get parliament to vote part of the money, but this was refused. Parliament wanted the full report.

With parliament prorogued and the commission's final report pending, there was no vote passed. The secretary of state admits that some of the claimants are in a destitute condition, yet nothing can be done for them.

Canada has received \$4,000,537 in payments on reparations account, and still owes \$2,789,459 due from Great Britain. The latter sum, however, is dependent on the settlement of other accounts between Britain and Canada. If this sum is paid there will be \$7,789,917 available on reparations account, together with any Dawes instalments paid in the meantime.

The policy of the government with reference to this money will not be decided until Commissioner Friel makes his report.

The British parliament appropriated \$25,000,000 for distribution to the claimants who had suffered loss. Canadians domiciled in Britain have been compensated, but Canadians domiciled at home must still wait nearly nine years after the war is over.

## AGRICULTURISTS OPTIMISTIC OVER CROP PROSPECTS

Winnipeg, Man. — A general survey of agricultural conditions throughout the west made by the agricultural department of the Canadian Pacific Railway, shows that conditions are satisfactory, though the spring is somewhat belated. The saturated condition of the soil, and the cold changeable weather of the past two weeks, have delayed commencement of work and precluded any possibility of farmers getting an early start. With the exception of a small amount of plowing and discing in southern portions of the prairie provinces, no work on the land has been done, but it is scarcely likely even under the most favorable weather conditions that seeding can become general in the west before the end of April or the beginning of May.

In higher lands, having good drainage, seeding should commence early this week. Seeding in Manitoba, in 1929, was not general until May 3; in Saskatchewan, May 6, and in Alberta, May 5. In 1923, seeding was general in Manitoba on May 6; in Saskatchewan and Alberta on May 1. The long cold winter with considerable snow combined with a late start in seeding in many parts of the west, has made it somewhat hard on stock, with a likelihood of thin cattle, this spring.

Having their optimism largely on the fact that few springs have started off with as much moisture in the land as now, farmers are looking forward to a good crop year. In practically all the districts throughout the west there should be sufficient moisture to carry the crop until the beginning of June.

## Announces Anaemia Cure

Ready For Public Use Very Soon

Says Rochester Doctor

Rochester, N.Y. — A man has proclaimed a new standard of life. With the announcement that within a few weeks there will be ready for public use a cure for anaemia that has been successful in 90 out of 100 cases.

The announcement was made by Dr. George R. Whipple, dean of the medical schools of the University of Rochester, after ten years of experiments in which he has been assisted by Mrs. Frieda S. Rohrer, physiologist at the school. For the past two years Dr. George R. Whipple and Dr. Edwin J. Cohn, of Harvard medical school, have collaborated with them.

The cure is a serum discovered during a decade of experimenting on anaemic dogs and humans. It is an extract of beef liver but has not yet been sufficiently purified to permit chemical identification or naming. It will be distributed through selected physicians in the various cities as was done with insulin.

## British Peer Joins Laborites

Sir Robert Peel Has Gone Over to Labor

London. — Another member of the British nobility is to join the Labor Party. Sir Robert Peel, baronet, grandson of the statesman, "Bobbie" Peel, from whom the London policemen derived the nickname which has clung to them since early in the Victorian period, has announced his intention of participating in politics on the side of Labor. The young peer already has under consideration proposals to stand for Parliament in the Tamworth division of South Staffordshire, his home, which was the division represented by his grandfather when he entered politics.

While prime minister, the older Peel founded the modern police force, and immediately the policemen became known as "Bobbies," and also as "Peelers," but the latter designation lasted only for a short time.

## Plan to Broadcast Carillon Concert

If Bells Installed Reclined Will be

Ottawa. — On the night of July 1 it is planned, in connection with the Diamond Jubilee celebration, to broadcast from coast to coast a recital on the parliamentary carillon.

It is the intention to have a program of patriotic music. The idea has been sanctioned by the Jubilee Committee and radio and television experts were in consultation here concerning the technical end of the performance.

## Local and General Briefs.

Kamloops Elks are commencing construction this month on a \$75,000 lodge building.

The Journal was in error last week when we stated that Mr. J. C. Cox attended the Kennel Show at Lethbridge on Good Friday. This item should have read Mr. F. A. Cox.

Nick Wasnie, forward; Cecil Browne, forward, and Charlie Gardner, goalkeeper, of the Winnipeg Maroons have been sold to the Chicago Black Hawks of the National Hockey league for \$17,000. "Nick" Wasnie, who figures in the sale, was one of the stars of the Coleman senior hockey team which reached the finals in the Allan Cup play downs three years ago.

Dave Keddle who played football here in 1923, was seriously hurt at Calgary on Saturday while taking part in a soccer match.

Mr. J. L. Van Camp of Pincher Creek, Asst. Forest Supervisor, and Mr. J. H. Boulton, District Forest Ranger, Coleman, are busy this week attending schools throughout The Pass giving short talks to the scholars on "Conservation and Protection of our Forests from Fire."

Mr. J. F. Galbraith, of Calgary, who spent several months in Coleman last summer relieving as manager of the Bank of Commerce, renewed acquaintances here on Monday on his way to San Francisco by motor.

Book covers for school books given away free at Antrobus' Shoe Store.

The congregation of St. Paul's United Church were glad to have their pastor, the Rev. Mr. Bevan, back with them again last Sabbath, after his enforced absence of over a month owing to illness.

The Elks lodge has secured a lease of the skating rink for the summer months. This is not in the least a selfish idea, but rather the reverse, for the plan is to install a gymnasium, provide facilities for games and sports for young and old, and if calculations carry, the rink this season will be a regular pleasure centre, furnishing recreation and physical culture as well as entertainment. The Elks all in due course make definite announcement of their program.—Vulcan Advocate.

### St. Paul's United Church of Canada

Sunday, May 1st

2.30 p. m. Sunday School.

11 a. m. Morning Worship.

7 p. m. Evening Service.

You will enjoy the congregational singing.

Strangers and visitors cordially invited to the services.

H. J. Bevan, Minister.

Mr. R. F. Barnes received a telegram from Vancouver on Thursday morning stating that his father was very ill. Mr. Barnes left immediately for the Coast and will likely be away for several weeks.

Evan Gushel, of Coleman, was a medal winner in the violin solo. and Miss Mary Baron and Miss Pisony, also of Coleman, took second places in the piano competition open to The Pass, at the recent Musical Festival.

The Pythian Sisters are holding a Pantry Sale, Candy Stall, and afternoon Tea in their hall on Monday, May 2nd, from 3 to 6 p. m. A whist drive and dance in the evening.

Mrs. Frank Lote and the two sons, Joseph and Verney, of Hillcrest, left last Sunday night to spend a year's holiday visiting relatives in England.

H. W. Clark, of Coleman, has recently been added to the staff of the local branch of the Canadian Bank of Commerce. Mr. Clark is succeeding Ed. Boulter, who was transferred to Drumheller recently.—Hanna Herald.

Among the official delegates to the World's Poultry Congress to be held at Ottawa from July 27th to August 4th, will be Count and Countess Van Heemstra of The Hague, Holland, who are noted poultry fanciers. The Dutch delegation is bringing along a live bird exhibit of fifty flocks of fowl and a lot of pigeons.

Master Billy Oulmette entertained a number of boy friends at a theatre party and at his home last Saturday in honor of his 8th birthday anniversary.

Mr. and Mrs. Geo. Kellock entertained at bridge at their home on Friday evening of last week.

Rev. Father McCormick left on Tuesday night's train for Alexandria, Ont., where he was summoned owing to the illness of his eldest brother. Father McCormick had intended visiting in the East later in the summer, so it is likely he will spend several months in Old Ontario before returning. Rev. Father Cosman, of Blairmore, will officiate at the Holy Ghost Church during his absence.

Another Sootsman has gone crazy. He bought a score card at a baselall game and neither side scored.

Though one may be unable to discharge his obligations, he should always be able to remember them.

It is announced that the champion of all champion hens of all time will be on exhibition at the World's Poultry Congress of 1927 to be held in Ottawa from July 27th to August 4th. This bird, known as "Hen Number Six" was one of a pen owned by the University of British Columbia which took part in the egg laying contest conducted at Agassiz, British Columbia, in 1926. Her marvelous record of 351 eggs in 364 days is the wonder of the poultry world, and no doubt the University of British Columbia's exhibit at Congress will be one of the mecesses of poultry fanciers, who will be anxious to have a glimpse of this super-hen, and learn more from the officials of her "work."

## NOTICE!

### CLEAN UP DAY!

The civic authorities have decided to set apart Monday, May 9th, as Clean-Up Day in Coleman, when all residents are requested to see that refuse of all kinds are removed from their premises.

### Canned

## Tomatoe Week

April 30th to May 7th

No Better Spring Tonic Than Canned Tomatoes

The best medical advice is that canned tomatoes include all the essential body building properties—those that are absolutely necessary for the development of every part of the human system.

### Serve Them Often

Canned Tomatoes can be used in a variety of ways to suit every taste, as a vegetable, on toast for luncheon and with macaroni and cheese. They can be prepared in a mold with gelatine and a few canned peas, into a tempting and attractive salad and turned out of the mold for serving.

Get in a supply for next week, but be sure the quality is right. Buy Hamsterly Farm choice quality (not Standard Pack) at 5 tins for .90

Serve Tomatoes to the growing kiddies, they are good for them.
